

§ 901.110

24 CFR Ch. IX (4–1–02 Edition)

old that require major capital investment in order to meet local codes or minimum HQS standards, whichever is applicable. This excludes developments that have been comprehensively modernized.

(ii) *Neighborhood environment*: refers to units located within developments where the immediate surrounding neighborhood (that is a majority of the census tracts or census block groups on all sides of the development) has at least 51% of families with incomes below the poverty rate as documented by the latest census data.

(3) Any PHA with 5% or more of its units subject to either or both of the above conditions shall, if they so choose, be issued an adjusted PHMAP score in addition to the regular score based solely upon the certification of the PHA. The adjusted score shall be calculated as follows:

Percent of units subject to physical condition and/or neighborhood environment	Extra points
At least 5% but less than 10%5
At least 10% but less than 20%6
At least 20% but less than 30%7
At least 30% but less than 40%8
At least 40% but less than 50%9
At least 50%	1.0

(i) These extra points will be added to the score (grade) of the indicator(s) to which these conditions may apply. A PHA is required to certify on form HUD-50072, PHMAP Certification, the extent to which the conditions apply, and to which of the indicators the extra scoring points should be added.

(ii) Units in developments that have received substantial rehabilitation within the past ten years are not eligible to be included in the calculation of total PHA units due to physical condition only.

(iii) A PHA that receives a grade of A under indicators #4 and/or #5 may not claim the additional adjustment for indicator #1 based on physical condition of its developments, but may claim additional adjustment based on neighborhood environment.

(iv) A PHA that receives the maximum potential weighted points on indicators #1, #4 and/or #5 may not claim any additional adjustment for physical condition and/or neighborhood environment for the respective indicator(s).

(v) A PHA's score for indicators #1, #4 and/or #5, after any adjustment(s) for physical condition and/or neighborhood environment, may not exceed the maximum potential weighted points assigned to the respective indicator(s).

(4) If only certain units or developments received substantial rehabilitation, the additional adjustment shall be prorated to exclude the units or developments with substantial rehabilitation.

(5) The Date of Full Availability (DOFA) shall apply to scattered site units, where the age of units and buildings vary, to determine whether the units have received substantial rehabilitation within the past ten years and are eligible for a adjusted score for the physical condition factor.

(6) PHAs shall maintain supporting documentation to show how they arrived at the number and percentage of units out of their total inventory that are subject to adjustment.

(i) If the basis was neighborhood environment, the PHA shall have on file the appropriate maps showing the census tracts or census block groups surrounding the development(s) in question with supporting census data showing the level of poverty. Units that fall into this category but which have already been removed from consideration for other reasons (permitted exemptions and modifications and/or exclusions) shall not be counted in this calculation.

(ii) For the physical condition factor, a PHA would have to maintain documentation showing the age and condition of the units and the record of capital improvements, indicating that these particular units have not received modernization funds.

(iii) PHAs shall also document that in all cases, units that were exempted for other reasons were not included in the calculation.

§ 901.110 PHA request for exclusion or modification of an indicator or component.

(a) A PHA shall have the right to request the exclusion or modification of any indicator or component in its management assessment, thereby excluding

or modifying the impact of those indicator's or component's grades in its PHMAP total weighted score.

(b) Exclusion and modification requests shall be submitted by a PHA at the time of its PHMAP certification submission to the State/Area Office along with supporting documentary justification, rather than during the appeal process.

(c) Requests for exclusions and modifications that do not include supporting documentary justification will not be considered.

(d) Indicator #2, modernization, shall be automatically excluded by the State/Area Office if a PHA does not have an open modernization program.

(e) Indicator #7, resident services and community building, shall be automatically excluded by the State/Area Office for PHAs with fewer than 250 units, or with 100% elderly developments, unless they request to be assessed at the time of the PHMAP certification submission.

(f) Indicator #8, security, shall be automatically excluded by the State/Area Office for PHAs with fewer than 250 units unless they request to be assessed at the time of the PHMAP certification submission.

§901.115 PHA score and status.

(a) PHAs that achieve a total weighted score of 90% or greater shall be designated high performers. A PHA shall not be designated as a high performer if it scores below a grade of C for any indicator. High performers will be afforded incentives that include relief from reporting and other requirements, as described in §901.130.

(b) PHAs that achieve a total weighted score of 90% or greater on its overall PHMAP score and on indicator #2, modernization, shall be designated mod-high performers.

(c) PHAs that achieve a total weighted score of less than 90% but not less than 60% shall be designated standard. Standard performers will be afforded incentives that include relief from reporting and other requirements, as described in §901.130.

(d) PHAs that achieve a total weighted score of less than 60% shall be designated as troubled.

(e) PHAs that achieve 60% of the maximum calculation for indicator #2, modernization, shall be designated as mod-troubled.

(f) Each PHA shall post a notice of its final PHMAP score and status in appropriate conspicuous and accessible locations in its offices within two weeks of receipt of its final score and status. In addition, HUD will publish every PHA's score and status in the FEDERAL REGISTER.

(g) A PHA that cannot provide justifying documentation to HUD during the conduct of a confirmatory review, or other verification review(s), for any indicator(s) or component(s) certified to, shall receive a failing grade in that indicator(s) or component(s), and its overall PHMAP score shall be lowered.

(h) If the data for any indicator(s) or component(s) that a PHA certified to cannot be verified by HUD during the conduct of a confirmatory review, or any other verification review(s), the State/Area Office shall change a PHA's grade for any indicator(s) or component(s), and its overall PHMAP score, as appropriate, to reflect the verified data obtained during the conduct of such review.

(i) A PHA that cannot provide justifying documentation to the independent auditor for the indicator(s) or component(s) that the PHA certified to, as reflected in the audit report, will receive a grade of F for that indicator(s), and its overall PHMAP score will be lowered.

(j) A PHA's PHMAP score for individual an indicator(s), component(s) or its overall PHMAP score may be changed by the State/Area Office pursuant to the data included in the independent audit report, as applicable.

(k) In *exceptional circumstances*, even though a PHA has satisfied all of the indicators for high or standard performer designation, the State/Area Office may conduct any review as necessary, including a confirmatory review, and deny or rescind incentives or high performer status, as described in paragraphs (a) and (b) of this section in the case of a PHA that:

(1) Is operating under a special agreement with HUD;
